PROFESSIONAL SUMMARY

Full Stack Web Developer shipping production web and mobile products for media, architecture, culture, and youth-empowerment partners. Strong in Laravel, React, Inertia, and React Native — inheriting live systems, upgrading operations, and delivering institutional platforms with LionsGeek Pro teams.

EXPERIENCE

Full Stack Developer

Jun 2024 – Present

LionsGeek · Casablanca, Morocco

- Ship full-stack web and mobile products for LionsGeek’s Coding PRO studio — community tools and client platforms (Tilila / 2M, JADARA / YES Africa, Casamémoire, Atelier A1).
- Upgrade live production systems: MyLionsGeek reservation overhaul and LionsGeek Mobile companion used by students, coaches, and staff.
- Stack: Laravel, Inertia, React, Tailwind, React Native, Expo — CMS, booking, multilingual events, companion apps. Represented LionsGeek at IN]VISIBLE Festival 2026 (Brussels).

FEATURED PROJECT

MyLionsGeek + LionsGeek Mobile

Featured · LionsGeek community ecosystem · Web + iOS / Android · mylionsgeek.ma

Laravel · React · Inertia · Tailwind · Ably · React Native · Expo · Agora

- Live ecosystem for students, coaches, staff, and recruiters — MyLionsGeek web platform plus LionsGeek Mobile companion.
- Web: coworking/studio reservations, social feed (posts, likes, comments, follows), private chat, jobs & portfolios; coaches manage classes/attendance; staff run approvals, equipment, moderation & analytics.
- Mobile (RN/Expo): real-time messaging (DMs, groups, voice notes), voice calls (Agora + CallKit), stories, reservations, community feed, training QR check-in, events, push notifications.
